Professional Summary

Aspiring Data Analyst With hands-on project experience in power BI, SQL, Excel, and Basic Python. Skilled in data cleaning, data analysis, data Visualization, KPI reporting, and data modeling. Developed end to end analytics Projects using Power BI and SQL to transform structured datasets into interactive dashboard and meaningful insights. Strong analytical thinking and problem-solving Skills with a focus on supporting data-driven decision-making.

Technical Skills

Data Analytics : Data Cleaning, Data Analysis, Exploratory Data Analysis (EDA) , KPI Reporting, Data Visualization, Analytical Thinking

Power BI : Data Modeling, Dax, KPI Development, Interactive Dashboard Desing, Slicers, Charts, Business intelligence

SQL : Joins, SELECT, WHERE, GROUP BY, HAVING, Subqueries, Aggregate Functions, CASE Statements, Data Filtering

Microsoft Excel : Pivot Tables, XLOOKUP, INDEX-MATCH, IF Functions, Data Cleaning, Data Analysis, Charts

Python : Basic Python, NumPy, Pandas, Data Analysis Fundamentals

Tools : Power BI Desktop, Microsoft Excel, GitHub

Technical Projects

NHAI Infrastructure Operations Analytics Dashboard

Project Link : <https://github.com/sumitkumar1553/NHAI-Highway-Analytics-Dashboard>

- Developed a multi-page Power BI dashboard for highway projects, tolls, traffic, safety, amenities, and employee performance
- Built interactive KPIs, slicers, and visuals to track project cost, completion, revenue, traffic, and accidents.
- Analyzed toll/FASTag transactions and vehicle records to identify payment trends, vehicle distribution, traffic patterns, and highway performance.
- Created road safety and workforce analytics covering accident trends, CCTV status, and employee performance.

Hospital Data Analytics Dashboard

Project Link : <https://github.com/sumitkumar1553/Hospital-Data-Analytics-Dashboard-PowerBI>

- Developed an interactive Power BI dashboard to analyze patient, doctor, appointment, operational, and financial data.
- Used SQL, DAX, and data modeling to transform data and develop meaningful KPIs, charts, filters, and reports.
- Built analytics for patient tracking, appointments, bed occupancy, and medicine stock to monitor hospital operations.
- Created financial and revenue analysis dashboards to provide insights into hospital performance.

Education

Jaipur Engineering College (Jec), RTU Kota

2026 - 2029

Bachelor of Technology, Computer Science and Engineering

Jagannath University, Jaipur

2023 - 2026

Diploma – Computer Science Engineering

Certifications

- Introduction to Data Analytics – Simplilearn
- Data Analytics Job Simulation – Deloitte, forage
- Power BI Micro Course – Skill Course
- Microsoft Excel With A.I Masterclass – Skill Course
